

LEARN OUTSIDE THE BOX

This project has been funded with support from the European Commission. This document reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

1

Short summary

Globally, people have some difficulty focusing for a long period and in the same place, so it is necessary to innovate and use different methods. Learning outside the box implies breaking out routines and captivating the attention of the students/trainees, making it efficient.

2

Aims and objectives

- Increase knowledge
- Increase proactivity
- Encourage cooperativeness
- Encourage mutual help
- Increase communication skills

3

Target group

Over 18

4

Activities

- Research on the topics that will be covered in the next class;
- Group work
- Training/outdoor class;
- Theme games

5

Tools & Methods

- Computers
- Room
- Outdoor access

Co-funded by the
Erasmus+ Programme
of the European Union

Transferability

This learning method can be adopted at any time, it is only up to the teachers/trainers to change the way they carry out the activities during the lessons. Communication and themes are also very important aspects for this method to be applied.

Impacts

Considering these aspects, learning outside the box allows the development of the Students'/trainees' abilities in the following points:

- initiative
- critical thinking
- teamwork
- perseverance
